## Florida Department of Education

### President Obama's 2010 Proposed Budget

As many of you know, President Obama has released his 2010 Federal Budget proposal, which contains language that would eliminate the Federal Family Education Loan Program (FFELP).

The Florida Department of Education, Office of Student Financial Assistance (OSFA) agrees with President Obama's desire to support increased funding for needy students because that has been OSFA's goal in the past and will continue to be OSFA's goal in the future. As Florida's guaranty agency, we administer state scholarship and grant programs for the students and schools of Florida.

We believe that Florida's students, parents, and schools benefit from having a local agency that supports the FFELP. We believe that borrowers should have the right to choose the type of education loan they receive. We believe that we have proven our ability to provide outstanding customer service to our Florida

students, parents, and schools, and because of that we have earned your trust.

By visiting <http://www.usa.gov/Contact/Elected.shtml> you may contact your congressional representative and senators to voice any concerns you may have about the 2010 Federal Budget proposal and how you feel about the FFELP.

The 2009-10 Bright Futures Master Eligibility List (MEL) is updated continuously with initial and renewal students. Renewal students populate the MEL once OSFA receives grades and hours, and evaluates them. As of July 1, 2009, we will have over 99% of the Bright Futures grades and hours submitted and those students will have been evaluated and populate the MEL, if eligible. On July 1, 2009, we opened the summer grade and hours report for those student who have been found ineligible after Spring 2009. ## The OSFA Philosophy

As a public agency, OSFA has the ability to offer its partners and customers something few guarantors can: the ability to shape OSFA programs and services based on their specific concerns. Earnings generated from OSFA's loan programs are used to provide financial aid workshops, publications, and better services for our participants, and to help fund scholarship and grant programs. When schools and students choose to use the OSFA guarantee for student loans, they are actually helping countless other needy and deserving students by investing in education programs. So, if a participant has a problem or suggestion, OSFA management listens and does whatever it takes to implement a solution that meets their needs. Public dollars deserve that kind of accountability in education finance.
