

Florida Bright Futures Postsecondary Enrollment

The majority of Bright Futures students attend a public state university. During the first four years of the program, a greater percentage of eligible student enrollment shifted to the four year public institutions. The percentage of awards disbursed at public state universities increased by 8%, while the percentage of awards disbursed at public community colleges and private universities decreased. However, since 2005-06, the percentage of Bright Futures recipients disbursed at public community colleges has increased by 5%, while the number of students attending 4 year institutions has decreased by the same percentage.

Florida Bright Futures Postsecondary Enrollment

¹ Includes 2 year Private Institutions and Vocational/Technical Schools

² About 2% of students each year transfer from one institution to another and are disbursed; therefore they are counted twice in these figures.
